

**\$9,753** including GST. (plus dealer delivery & registration) (ACCC Safety Compliant)

Powerful, Reliable and Tough as Nails! These inherent traits are in the DNA of every TGB ATV. The full-size Blade 520 4x4 maybe our entry price model but there is nothing basic about this beast! With fully independent suspension, the ride and comfort of the more expensive brands and a market leading power and performance are standard features to the new TGB range.

Sample Photo Only – some accessories or colour option/s may not be available. Please check with your local dealer.

**Longford (TAS)** 6-8 Wellington Street (03) 6391 2411

## COLOURS

**ENGINE** The 503cc single cylinder 4-stroke engine feature Electronic Fuel Injection (EFI), single overhead cam and liquid cooling with an auxiliary fan that provides consistent performance in the most demanding conditions. This engine is clean and delivers class-leading horsepower and incredible torque.

**SUSPENSION** Double A-arm front and rear suspension delivers premium comfort and control in all conditions. Fully adjustable independent suspension on all TGB Blade with shocks mounted to the lower A-arm for maximum performance and a wider range of rider comfort. Fine-tune the suspension for individual riding styles and or load carrying.

### STEEL FRONT & REAR RACKS

Heavy-duty front and rear racks outperform composite racks and are easy to secure large loads with 165 lbs. capacity on the rear and 99 lbs. up front.

**INSTRUMENT GAUGE** Digital display features odometer, speedometer, trip odometer, RPM, EPS setting and fuel level. Surrounding the display are easy-to-identify indicators for transmission position, high temp, low battery, high beam, low oil pressure, check engine, 2wd/4wd and differential lock indicators.

### CAPABILITIES

- Flooded Environments
- Hill Climbing
- Multi-Passenger
- Obstacles

## ATV SAFETY

- **Argo Australia and TGB** are serious about safety on ALL ATVs, particularly quad bikes. It is no secret that there have been many fatalities involving quad bikes over the years; part of the reason TGB are happy to comply with the new Australian Quad Bike Safety Regulations. We can all lower the rate of accidents and fatalities through education, proper use and choosing the RIGHT machine to suit the rider and their tasks. Here is a quick guide to assist riders to improve their own safety outcomes:
- Choose a vehicle which is fit for purpose – for the task and the rider
- Wear a helmet – the most effective safety device
- Rider training – will allow you to fully understand both the ATV's features and its limitations
- Don't allow passengers on single seat ATVs, and no kids under 16 on adult size ATVs
- Strictly follow the manufacturer's guidance and warnings
